

Royal Magic Playing Cards Tapered

RGS 5233

There is no setup required to make these cards place you on a winning streak. All you need to do is shuffle the cards, deal them as usual and play are usual.

To read the cards look at the top left corner of the card where you will see an 8 pointed star. This allows you to read the card.

To read the suit look at the four small circles on the outside of the star design.

The one which is not filled in, signifies the suit of the card:

- S = Spade
- C = Club
- H = Heart
- D = Diamond

To read the value of the card, you need to look and the smaller 12 pointed star. You will notice one point is different to the others – this indicates what card this is. The easiest way to read this is to think of the points as a clock:

- 1 = Ace
- 2 = 2
- 3 = 3 and so on
- 11 = Jack
- 12 = Queen
- There is no pointer for the King, thus if there is no pointer the card is a King.
