RGS 5237

The rules for Sudoku are simple.

A 9×9 square must be filled in with numbers from 1-9 with no repeated numbers in each line, horizontally or vertically.

To challenge you more, there are 3×3 squares marked out in the grid, and each of these squares can't have any repeat numbers either.

Each deck of Sudoku cards comes with 36 cards to be filled. And relative answers are shown on the same deck (black/grey cards).
